VIRAJ HEGDE

MCA Student | Aspiring Software Engineer | Python • AI/ML • Full-Stack Development

Sirsi, Karnataka, India | +91 6363169723 | viraj.shreedhar@gmail.com | linkedin.com/in/viraj-s-hegde

CAREER OBJECTIVE

Motivated and analytical MCA student (2027 batch) at S-VYASA University with a strong foundation in Python, AI/ML, and Generative AI. Hands-on experience building a full-stack, ML-powered web application (CineAI) covering recommendation systems, REST APIs, and database design. Seeking a Software Trainee / Engineer Intern role to contribute to data-driven solutions, apply machine learning techniques, and grow within a world-class analytics organization.

TECHNICAL SKILLS

Programming: Python (Flask, OOP, scripting)

AI / Machine Learning: scikit-learn, pandas, NumPy — TF-IDF, Cosine Similarity, KNN, SVD (Collaborative Filtering), Hybrid Recommender Systems

Web Technologies: HTML5, CSS3, JavaScript, Jinja2, REST APIs, JWT & Session-based Authentication

Databases: MongoDB (NoSQL), MySQL

Tools & Platforms: Git, Docker & Docker Compose, VS Code, Jupyter Notebook, Postman

Typing & Office: Computer Typing, MS Office Suite

PROJECTS

CineAI — AI-Powered Movie Recommendation Platform

Stack: Python, Flask, scikit-learn, pandas, NumPy, MongoDB, JWT, Docker, Chart.js | MCA Project

- Built a full-stack, Netflix-style OTT web application with a real machine learning recommendation engine combining Content-Based Filtering (TF-IDF + Cosine Similarity + KNN) and Collaborative Filtering (Truncated SVD matrix factorisation) into a weighted Hybrid model.
- Designed a Flask REST API (movies, recommendations, search, chatbot, user actions, admin) with JWT and session-based authentication, role-based access control, and PBKDF2 password hashing.
- Implemented a MongoDB data layer (with mongomock fallback for zero-setup demos), supporting favorites, watchlists, ratings, and reviews that live-retrain the SVD model.
- Built additional AI-driven features: mood-based recommendations, an AI chatbot, and voice search, plus an admin analytics dashboard using Chart.js.
- Containerised the application with Docker & Docker Compose and prepared cloud deployment configuration (Render blueprint).

Seat&Screen — Movie Ticket Booking Web App

Stack: HTML, CSS, JavaScript, PHP, MySQL

- Built a full-stack movie booking platform with dynamic movie listing, real-time search, and genre filtering via a PHP REST-like API endpoint.
- Developed user authentication with session management, form validation, and PDO-based parameterized queries.
- Designed a responsive dark-themed UI using CSS Grid layout with mobile breakpoints.

SOFT SKILLS & ATTRIBUTES

- Quick Thinking & Problem Solving
- Strong Analytical Mindset
- Willingness to Learn & Adapt
- Effective Communication (English, Hindi, Kannada)
- Attention to Detail
- Team Collaboration

INTERESTS

Coding & Software Development • Artificial Intelligence & Emerging Technologies • Academic Learning & Research • Tech Trends & Innovation

LANGUAGES KNOWN

Kannada • Hindi • English

EDUCATION

Qualification	Institution	Year	Score
MCA (Pursuing)	S-VYASA Deemed to be University	2025 – 2027	—
BCA	MGM, Udupi, Karnataka	2022 – 2025	CGPA: 7.0
PUC	Karnataka State Board	2020 – 2022	60%
SSLC	Karnataka State Board	2019 – 2020	54%

PERSONAL INFORMATION

Date of Birth: 26 March 2004 **Gender:** Male
Nationality: Indian **Location:** Sirsi, Karnataka

I hereby declare that all the information provided above is true and correct to the best of my knowledge.
